

CHITTETY CONSTRUCTION

Complete Website Blueprint & Build Handoff Kit

Catalog-Based Corporate Construction Supply Website | Dallas, Texas

Purpose: This file consolidates the complete website strategy, structure, content, product catalog logic, services, trust pages, policy pages, and implementation instructions discussed for Chittety Construction. It is designed for direct use in Lovable, Figma, or with a web development team.

1. Executive Summary

Chittety Construction should be positioned as a Dallas-based construction supply, procurement, vendor network, and service coordination company. The website must not look like a simple handyman booking website or an ecommerce checkout store. It should function as a premium, static-information-first corporate catalog platform where customers browse products and services, view pricing structure, understand capabilities, and contact the company for quotes.

The website should represent 10+ years of ground-level construction and vendor experience, a strong vendor base across the USA, and the ability to support B2B, B2C, wholesale, contractor, and project procurement requirements.

Website Type	Primary Purpose	Business Model	Conversion Action
Static + Catalog Information Website	Build trust and present catalog/services	B2B, B2C, wholesale, vendor sourcing	Call, WhatsApp, request quote

2. Brand Positioning

Recommended core positioning: Construction Materials, Electrical, Plumbing & Building Supplies in Dallas.

Recommended tagline options:

- Building Strong Foundations Through Trusted Supply Networks
- Construction Materials. Vendor Solutions. Project Success.
- One Network. Thousands of Construction Solutions.
- Supplying Projects. Supporting Growth.
- Your Trusted Construction Supply Partner.

Company Overview Copy

Founded over a decade ago, Chittety Construction has established itself as a trusted construction supply and solutions partner serving residential, commercial, industrial, and infrastructure projects across the United States.

With more than 10 years of ground-level industry experience, the company has developed strong relationships with manufacturers, distributors, contractors, builders, project managers, architects, plumbing suppliers, electrical vendors, flooring specialists, steel fabricators, and construction material providers.

What started as a construction support and sourcing operation has evolved into a comprehensive construction materials and services network capable of supporting projects of every scale—from individual homeowners and small contractors to large commercial developments and institutional projects.

Today, Chittety Construction operates through an extensive vendor ecosystem, providing access to thousands of construction products across multiple categories including plumbing, electrical, lighting, flooring, roofing, waterproofing, steel fabrication, structural components, hardware, tools, water systems, HVAC support materials, modular kitchen systems, building maintenance supplies, and specialized project requirements.

Our strength lies not only in supplying products but also in connecting customers with the right solutions. Through our vendor partnerships and industry relationships, we help clients source quality materials, compare alternatives, optimize project costs, and secure dependable service support whenever required.

3. Final Website Sitemap

Page	Purpose
Home	Corporate hero, catalog preview, services, vendor network, quote CTA
About Us	Company overview, mission, vision, values, experience
Product Catalog	1,500 SKU catalog with categories, filters, product detail pages
Services	185+ services with service codes, starting-from pricing and quote process
Industries Served	Residential, commercial, industrial, institutional, contractors
Vendor Network	Procurement strength, vendor relationships, sourcing support
Wholesale & B2B Supply	Bulk supply, contractor pricing, distribution support
Resource Center	Static guides and construction insights
FAQ	Common customer and contractor questions
Contact / Request Quote	Lead form, material upload, call/WhatsApp CTAs
Footer Legal Pages	Privacy, terms, refund, warranty, shipping, disclaimers, accessibility

4. Design Direction

The website should be minimalistic, premium, corporate, and futuristic. It should feel like a professional construction supply and procurement company, not a crowded marketplace.

- Generous spacing and clean white/dark-neutral backgrounds
- Modern corporate typography with strong headings and readable body text
- Minimal color palette with construction-grade accents such as graphite, steel, white, muted blue, and safety amber
- Clear dropdown menus and category grids
- Mobile-first layout with fast navigation
- No clutter, no fake counters, no fake reviews, no overdesigned animations
- Large cards for product categories and service divisions
- Strong trust sections: vendor network, quality assurance, policies, service areas

5. Homepage Section-by-Section Blueprint

Section	Content Direction
Hero	Construction Materials, Electrical, Plumbing &

	Building Supplies in Dallas. Buttons: Request Quote, Browse Catalog, Call Now.
Business Models	Retail Supply, Contractor Supply, Wholesale Distribution.
Catalog Categories	Show 12 main product divisions with clean cards.
Featured Products	Show selected products with SKU, market price, Chittety price, discount badge, and quote CTA.
Services Overview	Show major service categories and link to services page.
How It Works	Browse catalog → Send requirement → Get quote → Material/service arranged.
Vendor Network	Explain USA vendor base and multi-vendor sourcing.
Industries Served	Residential, commercial, industrial, institutional, maintenance and contractor segments.
Quality & Trust	Quality materials, reliable vendors, transparent quotes, service coordination.
Request Quote CTA	Short form and WhatsApp/call buttons.

6. Product Catalog Architecture

Every product must have a unique product code/SKU, unique name, category, brand, market price, 10% discounted Chittety price, availability, MOQ, description, specifications, and 5–7 image slots.

Code Prefix	Category	Includes
CC-PLB	Plumbing & Bathroom Fittings	Pipes, fittings, faucets, basins, WC systems, traps, valves
CC-SEW	Sewer Line & Drainage	Sewer pipes, drains, manholes, cleanouts, catch basins
CC-PMP	Pumps & Water Systems	Pumps, tanks, pressure systems, water controls
CC-ELE	Electrical, Wiring & Panels	Wires, conduits, switches, breakers, panels
CC-LGT	Lighting, Fans & Controls	LEDs, outdoor lighting, fans, sensors, controls
CC-HVAC	AC & Water Heater Support	AC accessories, thermostats, water heater parts
CC-FLR	Flooring & Tiling	Tiles, grout, adhesives, trims, flooring systems
CC-RWF	Roofing & Waterproofing	Shingles, membranes, sealants, gutters, roofing accessories
CC-BLD	Building Materials	Cement, drywall, insulation, lumber, masonry
CC-STL	Steel & Fabrication	Metal tubes, sheets, rods, welding and fabrication materials
CC-DHW	Doors, Windows & Hardware	Locks, hinges, handles, fasteners, door/window accessories
CC-TLS	Tools, Safety & Site Equipment	Power tools, hand tools, PPE,

		ladders, measuring tools
CC-KIT	Kitchen & Modular Systems	Cabinet hardware, baskets, sinks, organizers, kitchen automation

7. Product Database Fields

Field	Purpose
sku	Unique product code, e.g. CC-PLB-0001
product_name	Unique product name
category	Main catalog category
sub_category	Specific product grouping
brand	Brand/manufacturer/source brand
unit	Each, piece, pack, roll, ft, sq ft, etc.
moq	Minimum order quantity
market_price	Reference market price
chittety_price	10% discounted price: market_price x 0.90
discount_percent	Default 10%
availability_status	In stock, vendor available, call to confirm
short_description	Short catalog description
technical_specs	Key specifications
image_1_main	Main product image
image_2_front	Front view
image_3_side	Side view
image_4_back	Back/alternate angle
image_5_closeup	Close-up detail
image_6_installed	Installed/use-case view
image_7_packaging_specs	Packaging/specification view
cta_primary	Request Quote
cta_secondary	Call / WhatsApp Requirement

8. Pricing Logic

The catalog should display a market reference price and a Chittety discounted price. The initial Excel uses a 10% discount formula. Real-time pricing should not be faked; it requires an admin price sheet, Supabase price table, vendor feed, or a legally compliant pricing update mechanism.

Pricing Item	Rule
Market Price	Reference price from vendor/admin/source data
Chittety Price	market_price × 0.90
Discount Badge	10% OFF
Final Quote	Subject to stock, vendor confirmation, delivery, quantity, and project scope
Services	Show starting-from price only; final quote after inspection

9. Service Catalog Architecture

Services should be separated from products. Each service should have a service code, category, description, starting-from pricing, and quote CTA. Labor, inspection, site conditions, permits, urgency, and materials can affect final pricing.

Service Code Prefix	Division	Includes
CC-SRV-PLM	Plumbing Services	Water line, pipe repair, bathroom plumbing, kitchen plumbing
CC-SRV-SEW	Sewer & Drainage	Sewer line, drain cleaning, trench drains, camera inspection
CC-SRV-PMP	Pumps & Water Systems	Pump installation, tanks, filtration, water pressure
CC-SRV-ELE	Electrical Services	Wiring, rewiring, panels, outlets, lighting support
CC-SRV-HVAC	HVAC / AC / Water Heater	AC accessories, ventilation, water heater install/support
CC-SRV-FLR	Flooring & Tile	Tile, vinyl, hardwood, epoxy, grouting, repair
CC-SRV-RWF	Roofing & Waterproofing	Roof repair, waterproofing, gutters, membranes
CC-SRV-STL	Steel Fabrication	Gates, railings, structural steel, welding
CC-SRV-MNT	Building Maintenance	AMC, facility repair, preventive maintenance
CC-SRV-CST	Construction Support	BOQ, procurement, vendor sourcing, site coordination

10. Trust-Building Information Pages

Industries Served

- Residential construction
- Commercial buildings
- Industrial facilities
- Warehouses
- Healthcare and education facilities
- Hotels and hospitality
- Retail developments
- Apartment complexes
- Property management companies
- Contractors, builders, architects and engineering firms

Vendor Network

- Multi-vendor sourcing
- USA supplier relationships
- Direct manufacturer and distributor access

- Alternative product sourcing
- Bulk procurement support
- Contractor and project material support

Why Choose Us

- 10+ years industry experience
- Wide product catalog
- Vendor-backed sourcing
- Competitive pricing
- Wholesale and retail supply
- Project procurement support
- Residential and commercial capability
- Reliable service coordination

Quality Assurance

- Source from established vendors
- Support manufacturer-backed products
- Avoid unrealistic claims
- Clearly state final quote depends on availability and project requirements

Service Areas

- Dallas
- Fort Worth
- Arlington
- Plano
- Irving
- Frisco
- Richardson
- Garland
- DFW Metroplex
- Additional sourcing support across the United States

11. Footer, Policy & Legal Pages

Footer Page	Purpose
Privacy Policy	Contact form, quote data, analytics/cookies, user communication handling
Terms & Conditions	Website usage, quote validity, pricing changes, limitation of liability
Refund & Return Policy	30-day eligible returns, non-returnable custom/installed/cut products, inspection required
Warranty Policy	Manufacturer warranty pass-through, proof of purchase, misuse exclusions
Shipping & Delivery Policy	Local delivery, freight delivery, inspection at receipt, delays
Product Disclaimer	Images representative, specs/availability/prices

	subject to change
Service Disclaimer	Estimates preliminary; final cost depends on site inspection/material/labor
Cookie Policy	Analytics and website improvement cookies
Accessibility Statement	Commitment to usable website experience
Vendor Terms	Vendor coordination, fulfillment responsibility, quality checks
Procurement Policy	Quote-based sourcing and project-specific procurement
Copyright Notice	All rights reserved and brand/catalog content ownership

Refund & Return Policy Summary

- Eligible returns: unused products in original condition within 30 days with proof of purchase.
- Non-returnable: custom-fabricated, special-order, cut-to-size, installed, clearance, damaged-by-misuse products.
- Defective products: notify within 48 hours of delivery for verification and replacement/manufacture warranty support.
- Services: labor, site visits, consultations, installations, and commenced project work are generally non-refundable.
- Approved refunds: process to original payment method within 7–14 business days after approval.

12. Request Quote Form Requirements

- Name
- Phone
- Email
- Project type
- Product/service category
- Material list upload
- Quantity
- Delivery location
- Message
- Preferred contact method
- Urgency / timeline

13. Lovable Build Command

Build a premium, minimal, corporate catalog website for Chittety Construction, a Dallas-based construction supply, vendor network, wholesale distribution, and service coordination company.

This is not an ecommerce checkout store. It is a static-information-first catalog + inquiry + quote website.

Use the attached Excel catalog as the product and service data foundation. Every product must have SKU, unique name, category, brand, market price, Chittety price, 10% discount badge, availability, MOQ, description, technical specs, and 5–7 image gallery slots.

Main pages: Home, About Us, Product Catalog, Services, Industries Served, Vendor Network, Wholesale & B2B Supply, Resource Center, FAQ, Contact / Request Quote, plus footer legal pages.

Design style: premium, minimal, corporate, futuristic, MNC-style. Use clean typography, generous spacing, clear dropdowns, uncluttered cards, mobile-first navigation, and polished CTAs.

Do not create checkout or payment flow. Use Request Quote, Call Now, WhatsApp Requirement, Send Material List, and Ask for Bulk Price CTAs.

Pricing logic: market_price is source/admin/vendor price. chittety_price = market_price * 0.90. Final quote must be subject to availability, quantity, location, delivery, vendor confirmation, and project scope.

Services pricing should show Starting From only, with final quote after site inspection and requirement review.

14. Attached Excel Deliverables

File	Contains
chittety_construction_catalog_batch1_300_products.xlsx	Batch 1: master architecture + 300 seed products
chittety_batch2_plumbing_bathroom_sewer_300.xlsx	Batch 2: plumbing, bathroom, sewer
chittety_batch3_electrical_wiring_panels_300.xlsx	Batch 3: electrical, wiring, panels
chittety_batch4_lighting_hvac_pumps_250.xlsx	Batch 4: lighting, HVAC, pumps, water heaters
chittety_batch5_flooring_roofing_building_300.xlsx	Batch 5: flooring, roofing, building materials
chittety_batch6_hardware_steel_tools_350.xlsx	Batch 6: hardware, steel, tools, safety, kitchen
chittety_master_catalog_1500_products_services_database.xlsx	Master file: 1,500 products + services + database structure

15. Step-by-Step Implementation Roadmap

Phase	Action
Step 1	Finalize corporate identity and static content from this document.
Step 2	Import product and service catalog from the master Excel into Supabase/admin data structure.
Step 3	Build Figma or Lovable design system: colors, typography, spacing, cards, dropdowns.
Step 4	Create core pages: Home, About, Catalog, Services, Vendor Network, Wholesale, Contact.
Step 5	Create product category and product detail templates with 5–7 gallery slots.
Step 6	Create service detail pages with starting-from pricing and inquiry CTA.
Step 7	Add footer policy pages and trust pages.
Step 8	Connect quote/request forms to email, CRM, Supabase, or admin panel.
Step 9	Replace demo product images/prices with real vendor assets and approved prices.
Step 10	QA mobile, SEO, speed, form submissions, links, and policy pages before launch.

16. Important Notes & Controls

- Do not present market pricing as guaranteed live pricing unless connected to a real vendor/admin pricing source.
- Do not use fake reviews, fake awards, fake certifications, or inflated customer numbers.
- Product images can initially use placeholders, but final site should use vendor-approved or uploaded product images.
- Manufacturer names/brands should be used carefully and truthfully as source/supply brands, not as official partnerships unless confirmed.
- Policy pages should be reviewed by a qualified US legal professional before public launch.
- For live pricing, create an admin-controlled pricing update workflow before going public.
